This two-year program aims to prepare fellows to be independent investigators in the field of Health Services Research. Fellows spend their time in mentored research, an educational curriculum, and professional development activities relevant to the VA. Mentors of national stature provide guidance to fellows in rich and collaborative learning environments.

LEARNING HEALTH SYSTEM CURRICULUM

• Research Methods • Informatics • Systems Science
  • Healthcare System Improvement
• Implementation Science • Experiential Learning
  • Professional Development
• Leadership and Collaboration

Preventing Emerging Researchers in Diverse Areas of Health Services Research

Health Communication
Implementation Science
Health Informatics
Telehealth
Human Factors
Pain
Cancer
Cerebrovascular Disease
Mental Health
Advanced Mixed Methods

Mentored Research Opportunities & Focused Professional Development

Professional Workshops
Conference Travel
Project Funding Opportunities
Collaborative research with VA Operational Partners
CENTER FOR HEALTH INFORMATION AND COMMUNICATION (CHIC) 
HEALTH SERVICES RESEARCH & DEVELOPMENT (HSR&D) FELLOWSHIP

FELIGIBILITY AND HOW TO APPLY

Interested candidates should:

1) have completed a Doctoral degree. 
   (MD, PharmD, PsyD, PhD, DNS, EdD)

2) send a current CV, a Cover Letter, Two Letters of Reference, and a Personal Statement.

VA CHIC is committed to maintaining a culture of inclusivity in our community, which strives to recognize, respect, and celebrate our differences. VA CHIC researchers come from diverse disciplines and backgrounds, and we recognize this diversity to be a strength of research and research collaboration, which ultimately aids the health and well-being of the patients we serve in the medical center. As a commitment to this diversity, we encourage all qualified applicants to apply and do not discriminate based on gender, race, sexual orientation, religion, disability, or any other legally protected status.
